About my breed

We Great Danes are gentle, moderately playful, good with kids. We guard our homes, learn faster than other breeds, and tend to be affectional. Experts say we're a very low odor breed.

Health & Grooming

My human parent Lana grooms me at home 5-6 times per year (plus those rare days when I'm in a playful mood and it's dirty outside). She also uses Seresto collar to protect me from fleas and ticks. We go for health check-ups once in 6 months, and I don't like when we do, but Lana gives me a special snack after a visit to cheer me up.

I know I'm a big dog, so here are references from a former landlord & neighbors
